

POWER GENERATION FROM SPACE

THE FIFTH ELEMENT

<u>Element</u>	<u>Source</u>	<u>Type of Generation</u>	<u>Availability</u>	<u>Remark</u>
Earth	Coal, Oil, Gas	Thermal plants	Limited, fast depleting	Highly polluting, limited supply
Water	Rivers	Hydro electric plants	Limited, exploited	Clean but impacts river eco system, reservoirs accumulate silt
Fire	Solar	Solar PV cells	Abundant, being exploited	Clean, less polluting No Fuel Costs
Air	Wind	Windmills	Abundant, being exploited	Clean, less polluting No Fuel Costs
Space	Space Higgs Field Akash	Reactionless Generator RLG	Infinite, to be exploited	Clean, no pollution No Fuel Costs
